Great War Veterans Association

A branch of the G. W. V. A. has been formed in Monitor. It is the privilege and duty of all citizens to express their gratitude for the sacrifice of our fallen brothers and for the glorious victory so nobly won by helping forward the high aims of this association. This can be done by taking a lively interest in the local branch.

At a meeting held on Wed. the following officers were elected: Pres. L. O. Gould; 1st. Vice-Pres. C. D. Garrett; 2nd V-Pres. G. Ryckman; Secy-Treas. J. C. Mayers. Executive Committee, E. O. Eisenman, C. O. Stewart, D. L. King.

BUSY BIDEFORD

"There aint nuffin in the column," grumbled the man with the grouch, "not worth readin', can't ya find any news these days, eh?" My dear sir, permit me to say I do my best, but this is a tiny town full of law abiding citizens and the occurrences of everyday life here are prosaic to a degree. We have no murders or shooting stories of domestic infelicity or unheard of accidents. We keep the even tenor of our way in a quiet and orderly fashion, and thus it happens there is nothing startling to report. Of course the drama of life is played out here much as in the great world outside, and last week we reported a giving and taking, marriage, and the arrival of the Stork; fortunately we had no visitation from the Reaper whose name is Death. If our friend wants excitement he must find it not in the Busy B. column but at the picture show where such tastes are catered for by camouflage life.

We had the pleasure of reading a postcard from Vic McLeod, who was in Bonnie Scotland. The view was of Loch Lomond and it reminded us of the many happy times spent "by your bonnie banks and braes." Vic has had quite an experience since leaving Bideford, being quarantined for months together for one thing and another.

We hear from Kindersley that there is a lot of flu and diphtheria in the town, and that Mr. Conquest had to visit the Doc as he like most other Bidefordites who leave home, had managed to pick up some germ or other which kept him in bed. Glad to say he is O. K. and at work again.

We are asked by the Red Cross Secty to say that there are many interesting booklets about the work of the Canadian Red Cross overseas and at home which make interesting reading. They can be had at the stores, free of charge. The activities of the Society are now centered around the force in Siberia who have so bravely faced the adverse climatic conditions. Another charge is the refugees and this is a big problem as there are hundreds of orphans of all ages to be looked after, and the Red Cross is helping in this Christ like work.

An excellent magazine is 'The Sailor', the official organ of the Navy League of Canada. Two copies come in to Bideford and they ought to be read by all. Ask the Postmaster who will pass on to you his or our copy.

The Newsman was on the war path hunting for news, but copy was as scarce as crops last fall. "Not a goll darned thing to tell you" said one "we're all dead here!" The Newsman left there sorrowing. "Any news for the paper?" we enquired, taking courage afresh. "Nope!" was the next rebuff, and our spirits fell to zero, but once again the effort was made and this time with success. "Yes!" said the young blood, "A fine young lady has just made an important discovery of which she is justly proud, she has just cut her first wisdom tooth, so

put it in the paper, for now there will be someone with good sense in the town of Busy B." Now we may expect some biting repartee for the lady in question has a pretty wit and is a match in argument for any of the stronger sex.

We hear that Mrs. Staley and little son are having an excellent time at Horizon, visiting and driving, and greatly benefiting by the change.

Anyone familiar with the feeding of hogs knows that much crude or raw mineral matter is consumed by them, aside from that actually contained in the food eaten, and known technically as the ash content. While a general statement as to the mineral or earthy requirements of the hog may be made, certain abnormalities may appear at various stages of the animal's existence due to a definite lack of some vital constituent, this lack due, in turn, to the absence of the required mineral or salt, in the soil that grew the foods.

The Flu

When your back is broke and your eyes are blurred
And your shin bones knock and your tongue is furled,
And your tonsils squeak and your hair gets dry
And you're skeered you won't and afraid you will,
Just drag to bed and have your chill.
And pray the Lord to see you through,
For you've got the Flu, Boy, you've got the Flu.

When your toes curl up and your belt goes flat,
And you're as mean as a Thomas cat,
And life is a long and dismal curse,
And your food all tastes like a hard boiled hearse,
And your lattice aches and your head's a buzz,
And nothing is as it ever was,
Here are my sad regrets to you—
You've got the Flu, Boy, you've got the Flu.

What is it like, this Spanish Flu?
Ask me, Brother, for I've been thru.
It is but Misery out of Despair,
It pulls your teeth and curls your hair.
It thins your blood and breaks your bones,
And fills your craw with moans and groans,
And sometimes, maybe, you get well,
Some call it Flu, —it's H.

Every Farmer In This District Should Read The Nor'-West Farmer

Western Canada's Oldest Farm Paper

If you are already a subscriber you will want to renew your subscription for another year, and if you are not a subscriber to it you ought to be. No farmer in these days of high prices and labor shortage can afford to do anything but his very best. Through a good farm paper you will get ideas worth many times the small subscription price. Each issue of The Nor-West Farmer is full of valuable information that any up-to-date farmer can use to his own direct advantage. It is edited for the whole farm family. If any reader wants information on any subject relating to either their farm problems or anything else The Nor-West Farmer information bureau will get that information for them. Their official veterinarian and legal adviser is at the service of every subscriber, free of all charge. If you have a weed problem, a soil drifting problem, a feed problem, tractor, automobile, or gas engine trouble of any kind, read The Nor-West Farmer, and you will soon get a wealth of ideas from the experience of other farmers, who have experienced and solved similar difficulties. The Nor-West Farmer is a "round-table" around which the best farmers of Western Canada meet. Will you be one of them?

Note and Comment

The young girls nowadays
seem to think that where
singleness is bliss, 'tis folly to
wives.

The report of The Dominion
Experimental Farms for the
year ending March 1918, which
can be obtained from the Dept
of Agriculture at Ottawa, shows
that experiments carried on at
these Farms in growing seeds
of field roots have proved not
only that it is possible to raise
heavy crops of these seeds in
Canada, but the seed raised is
at least equal, if not superior,
to that imported from other
countries. Besides securing
this information the Farms
have done a good work in pro-
viding quantities of stock seed
to meet emergencies.

The report constitutes a brief
review of the year's progress in
the various lines of work under
way at the Central and twenty
Branch Farms and Stations.

Reports from various por-
tions of the Dominion show
that the sale of War Savings
and Thrift Stamps is making
progress in a very satisfactory
manner.

Nettie Climer says that the
only modern convenience she
has discovered at her new dom-
ile is that the soup is so thin
that she can eat it with her
veil on.

Have You Started?

Have you started to use War
Savings and Thrift Stamps? If
not you should do so at once.
All should save something, it
matters not what their earning
power may be. To argue this
point is hardly necessary.

If Canadians do not save from
now on it will not be through
lack of system that makes sav-
ing easy. Nothing is better
than the War Savings Stamp
plan. Four dollars buys a War
Savings Stamp, for which the
Government will pay you \$5.00
in 1924. Twenty-five cents buys
a Thrift Stamp, 16 of which
may be exchanged for a War
Savings Stamp. Could any-
thing be easier? This form of
saving is also profitable, paying
 $\frac{1}{2}$ per cent compounded half-
yearly.

New Survey

A party of 15 C. P. R. survey-
ors commenced last week to
survey a line from Kirriemuir
to Empress. This is the first
survey, we understand, to be
run over this particular route,
and while it does not indicate
that steel will be laid at once,
it adds weight to the opinion
that the district affected is on
the eve of a period of develop-
ment and greater prosperity.

**The cost of ALBERTA
MUNICIPAL HAIL INSURANCE
is so low that no farmer can
afford to be without it---**

Consider this. Over a period of five years (1914-18) The
Alberta Municipal Hail Insurance District has carried a
total of \$33,000,000.00 of insurance at an average premium
of less than 5 2/3 %. During that time the average cost of
operating expenses was only a trifle over five cents on the
dollar. The new plan promises even better results.

As there are no profits to be made or dividends to be paid,
it provides the opportunity for fair adjustment of all claims
on the basis of actual damage done.

You will save money by voting for Municipal Hail In-
surance at the forthcoming Election.
